PairMundo

For agencies · Launch 24 November 2026

Get your families and au pairs ready before launch

The PairMundo apps launch in the App Store and Google Play on 24 November. Android and the website are open now. Invite your families and au pairs this week, help them finish their profiles, and they can start matching from day one.

1. Invite them now

From your agency page	Open **Invite families and au pairs**, choose family or au pair, and enter their email. They get a link to a free account and join your agency when they sign up with that email. You see who has joined.
Or share your link	pairmundo.com/?ref=**YOURCODE**. Au pairs can also type your code when they sign up. Their profile then shows "Prepared by" your agency.

2. A strong au pair profile

- ✓ **Photos (up to 6).** First photo: face clearly visible, natural light, smiling. Add a hobby or travel photo. No children's faces without their parents' permission.
- ✓ **About me.** 3 to 5 sentences: childcare experience, why they want to be an au pair, what they love doing with children. Profiles without a photo and an About me are not shown to families.
- ✓ **The basics.** Birth date, nationality, languages with an honest level (A1 to C2), countries they want, children's ages they know, available from, stay length.
- ✓ **Certificates.** First aid or CPR, language tests: add them and upload proof so we can check them.
- ✓ **ID check.** A few minutes with a passport or ID card; it adds the verified badge.
- ✓ **References.** Invite earlier host families or babysitting families to review them ("Verified family").
- ✓ **Personality.** Traits, hobbies, "My goal" and "My ideal family" make the profile feel like a person.

3. A strong family profile

- ✓ **Photos.** The family together, the home, and the au pair's room. A real room photo builds trust fast.
- ✓ **About us.** A normal day, what the au pair helps with, free time, what you do together on weekends.
- ✓ **Children.** Each child's age, and languages spoken at home and needed from the au pair.
- ✓ **The offer.** Start date, stay length, weekly hours and pocket money. PairMundo checks them against the host country's au pair rules.
- ✓ **The home.** Private room, pets, smoking, and whether driving is needed.
- ✓ **ID check.** A verified badge shows au pairs the family is real.

4. Your checklist before 24 November

- ✓ Everyone invited, and each new family approved on your agency page if you use approvals.
- ✓ Every profile at 100%: the app shows each person how complete their profile is.
- ✓ Photo and About me added (without them a profile stays hidden).
- ✓ ID checks done, certificates uploaded, one or two references requested.
- ✓ Your "who sees whom" settings chosen. By default everyone sees everyone.

PairMundo doesn't handle residence permits or contracts and doesn't place au pairs: we give you the tools; you place.
