

PairMundo

For au pair agencies

More placements for your agency, without more marketing

What your agency gets

Families you would never reach

Families on PairMundo who want full support, such as contracts, visas and local follow-up, are introduced to you. No ad spend on your side.

Direct au pair applicants

Au pairs who choose your country and want an agency are introduced to you, so you rely less on partner agencies abroad.

Your candidates seen worldwide

Sending agencies can list the au pairs they prepare, so host families in many countries see them. Au pairs never pay PairMundo.

Fewer placements that go wrong

Two-way reviews, ID checks and each country's rules checked on every proposal, so matches start on firmer ground.

What it costs

€0	to join. No monthly fee and no exclusivity.
€100	per placement, paid only when a family or au pair we introduced to you actually starts a stay. Introductions that don't lead to a stay are free.

What stays with you

- Your clients and your own fees
- Visas, contracts and program rules
- Your relationship with every family and au pair you take on
- The choice to stop at any time

How it works

1. A 15-minute call

We learn which routes you cover and what's hardest for you right now.

2. Pick your role

Receive introductions, list your au pairs, or both, on a one-page agreement.

3. Stay in touch

We tell you regularly how many families and au pairs we introduced to you.

PairMundo launches in the app stores on 24 November 2026. Introductions to agencies are made by hand while we build them into the app.
