

PairMundo

For agencies that send au pairs abroad

More host families for the au pairs you prepare

What your agency gets

Host families in the West

The au pairs you prepare are shown to host families in Europe, the US, Canada and other host countries, who are looking right now.

Safer homes for your au pairs

Families are ID-checked and reviewed by the au pairs who stayed with them before, so you can see who you are sending your au pairs to.

Each country's rules checked

Age limits, hours and pocket money for the destination are checked on every proposal, so your au pairs get fair terms.

A reputation that grows

Every finished stay leaves a two-way review, so strong candidates from your agency stand out to the next family.

What it costs

Free	for your agency, always. No referral fee, no monthly fee and no exclusivity.
€0	for your au pairs, always. Au pairs never pay PairMundo. Host families pay for the app.

What stays with you

- ✓ Your au pairs and the fees you charge them
- ✓ Training, preparation and visa support
- ✓ Your relationship with every au pair you send
- ✓ The choice to stop at any time

How it works

1. A 15-minute call

We learn which countries your au pairs go to and what's hardest for you right now.

2. Your au pairs sign up

Share the QR code or pairmundo.com with your au pairs. They create a free profile in a few minutes.

3. Families find them

Host families contact them in the app. We tell you regularly how many families reached out.

PairMundo launches in the app stores on 24 November 2026. This autumn we are running campaigns for host families in Sweden, Germany, France, Spain and other European countries.
