PairMundo

For real estate offices

Give your buyers with children an easier start in their new home

What is PairMundo?

A new Swedish app where families find an au pair safely. Launching on 24 November.

- ID verification and two-way reviews
- Sweden's au pair rules checked for the family
- Agreement, checklist and video calls in the app

What we suggest

A line and a QR code about PairMundo in your welcome information for buyers. We provide all the material, such as the enclosed insert.

Families who sign up with your code get **30 free days as a gift from you**, to use whenever they like within 12 months, plus **14 days free** right away.

What you earn

≈ 150 kr	for each family who buys a Family Pass with the office's code
≈ 420 kr	when an au pair stay starts with the office's code
1 500 kr	to the agent who brings their office on board, once we are in your welcome information

No fee, no commitment and no cap on commission. If you are paid for recommending us, tell the buyer, as with any other partnership. Amounts are approximate because rewards are set in US dollars.
