HOW IT WORKS

Three steps, then the app does the counting

1. **Share your code.** In posts, groups, schools and conversations with people who want to be au pairs. Everyone who arrives through your link or QR code, or types **ANA** when they sign up, is linked to you.
2. **They sign up.** Au pairs join the waitlist now and create their profile at launch. They stay linked to you either way.
3. **You earn.** Rewards are recorded automatically, and you see your numbers in the PairMundo app under *PairMundo ambassador*.

What you earn

US$2	when an au pair you referred completes their profile (photo, about me, languages and dates) and verifies their ID in the app, up to US$100 a month
US$40	when a stay starts for an au pair you referred
US$15	when a family you referred buys their first Family Pass

Each person earns you each reward once. Rewards are calculated in US dollars and paid monthly in your currency.

Getting paid

At the start of each month PairMundo sends you what you earned last month. Invoice it, or send your payment details, as agreed with PairMundo. You're paid within 30 days.

WHERE TO GO

Find people who'd love a year with a family abroad

Online	Your own Instagram, TikTok and WhatsApp · au pair groups on Facebook ("au pair Sweden", "au pair Europe") · student and travel groups in your city
In person	Universities and colleges · language schools (Swedish, English, German) · childcare and education courses · youth centres, churches and community groups
Who fits	18 to 30, loves children, wants to learn a language and see a new country. Childcare experience is a plus.

A good week

1. One post or story on your own channels (texts on the next page).
2. One group post, only where the rules allow it. Ask the admin first if unsure.
3. Answer every question within a day. Personal answers convert best.
4. Remind the people you referred to finish their profile and verify their ID: verified profiles get more matches, and only they count for your profile reward.
5. Once a month: a visit or talk at a school, course or club.

Share your own story

If you've been an au pair, that's your best material: what you learned, the family, the country. People trust a real person more than an ad.

Your link adds *role=aupair*, so people land on the au pair sign-up. For a specific group or school, ask PairMundo for a QR code with its own tag, so you can see where sign-ups come from.

WHAT TO SAY

Texts you can use as they are

> "Ever thought about being an au pair? 🌍 Live with a host family, look after the kids, learn the language and get pocket money, a room and food. PairMundo is a new app that helps you find the right family safely: verified families, two-way reviews, and the country's rules checked for you. It's free for au pairs. Join the waitlist with my link: pairmundo.com/?ref=ANA&role=aupair"

Short version for stories and WhatsApp

> "Want a year abroad with a host family? PairMundo is free for au pairs and checks the rules for you. Join here: pairmundo.com/?ref=ANA&role=aupair"

When someone asks...

"Is it really free?"	Yes, PairMundo is free for au pairs. Families pay for the app.
"Which countries?"	It launches first in Sweden (Stockholm, Uppsala, Örebro, Eskilstuna, Strängnäs). The app shows each country's au pair rules.
"Will I get a visa?"	Never promise one. Say: "The app shows the rules for each country, and you apply for your permit yourself."
"Is it safe?"	Families are verified, and families and au pairs review each other after a stay, so you can read what earlier au pairs said.

Do

- ✓ Use the words in this kit and on the cards.

- ✓ Send questions you can't answer to PairMundo.

Don't

- ✗ Promise visas, permits, pay or a match.
- ✗ Sign up yourself, friends or family to earn rewards. These don't count and can end the agreement.
