How it works

1 📋

You send a list

A spreadsheet, or just an email: name, email, au pair or family. About 10 minutes.

2 ✉️

We invite them

Each one gets an invitation from your agency, with your code already in it.

3 ✅

They go live

They add a photo and a few lines. Families see "Prepared by" your agency.

What to send

Name	Email	Type
Siti Rahma	siti@example.com	Au pair
Tendai M.	tendai@example.com	Au pair
The Lindqvists	anna@example.se	Family

Any format works. Only include people who agreed to join.

Why now

- Families are signing up now, and the au pairs they see first get the first likes and chats.
- You follow every candidate on your agency page: joined, live, matched.
- The agencies with the most finished profiles are named in our launch ads.
- Au pairs never pay. No cost to your agency.

Good to know

Privacy	We use each email once, for the invitation. Candidates create their own account and choose what to show.
Not ready yet?	Send the candidates you have now, even 3. We'll start with those and add more later.
