Your own closed PairMundo space, for your families and your au pairs

Families who find an au pair on an open app often stop needing an agency. Closed Loop keeps your clients with you: your families and au pairs meet, match and agree their stay in a space only you open, with your name on it.

A space only you open

- ✓ **Invite-only:** families and au pairs join with your agency code. Outsiders can't see them.
- ✓ **You approve every family** before they see a single au pair.
- ✓ **Contact details stay hidden** in chats until you confirm the placement, and every attempt to share one is flagged to you.
- ✓ **Introduction log:** a record of the first match between your family and your au pair, so no one can go around you.

Your team's dashboard

- ✓ Each family's stage, from new enquiry to placed
- ✓ A private note per family, and whether your fee is paid
- ✓ Swipe matching, chat, the au pair agreement and placement checklists

Your families don't pay us

The PairMundo Family Pass is included for every family you approve. Your families pay your agency fee, not ours, and see "Prepared by your agency" on the profiles you bring.

Bring your partners in

- ✓ **Sending agencies** abroad join your loop free, so your families meet their au pairs and no one else does.
- ✓ Show your **IAPA, WYSE or RAL** badge on your profile.

What stays with you

- ✓ Your clients, your prices and your contracts
- ✓ Your interviews, visas and permits
- ✓ Your partners abroad
- ✓ The choice to stop at any time
