# PairMundo

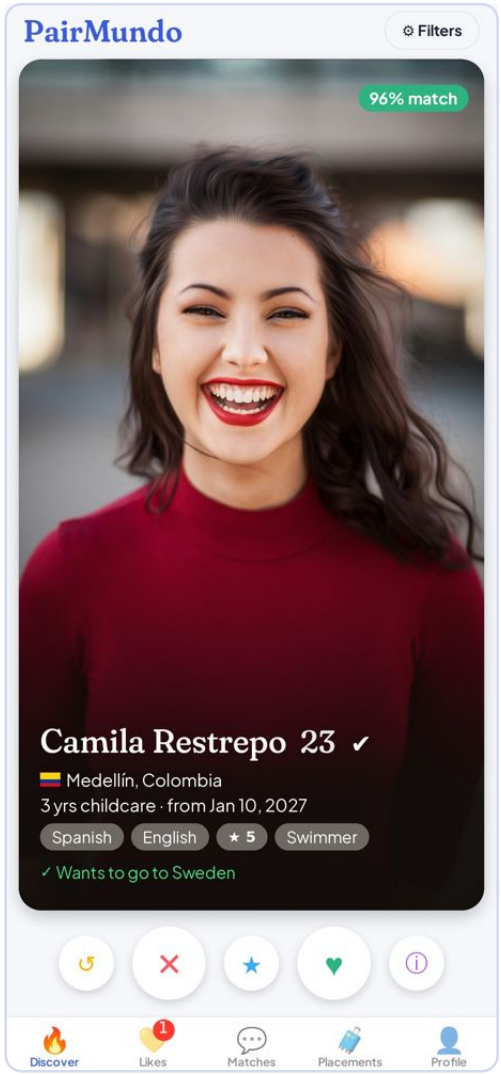

## The au pair matching app, launching worldwide

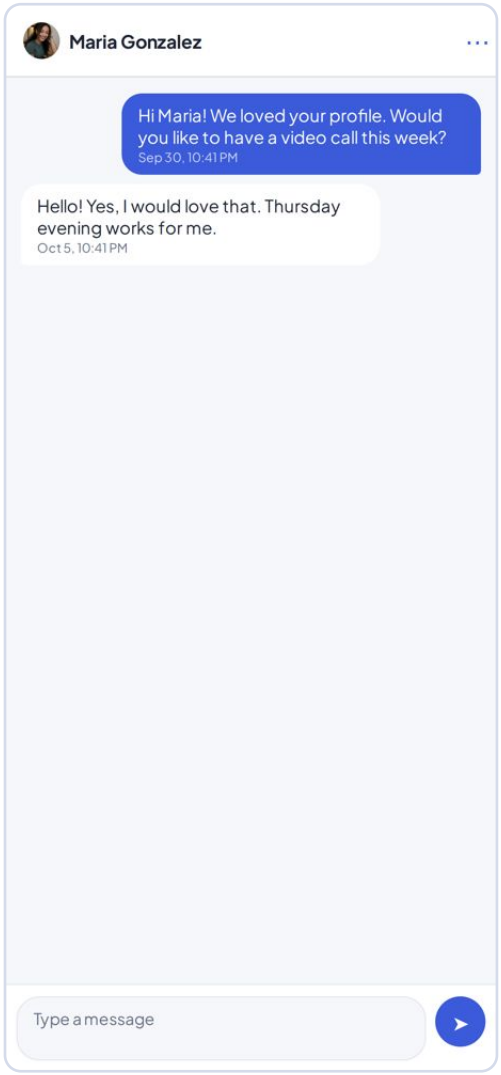

Partner presentation for au pair agencies and program sponsors

Badji · badji@pairmundo.com · pairmundo.com

# What PairMundo is

A mobile app where au pairs and host families find each other, then plan the placement together

## Swipe and match

Families and au pairs like each other's profiles. A mutual like opens a chat.

## Smart match scores

Based on children's ages, languages, dates, destination and must-haves.

## Built for the whole placement

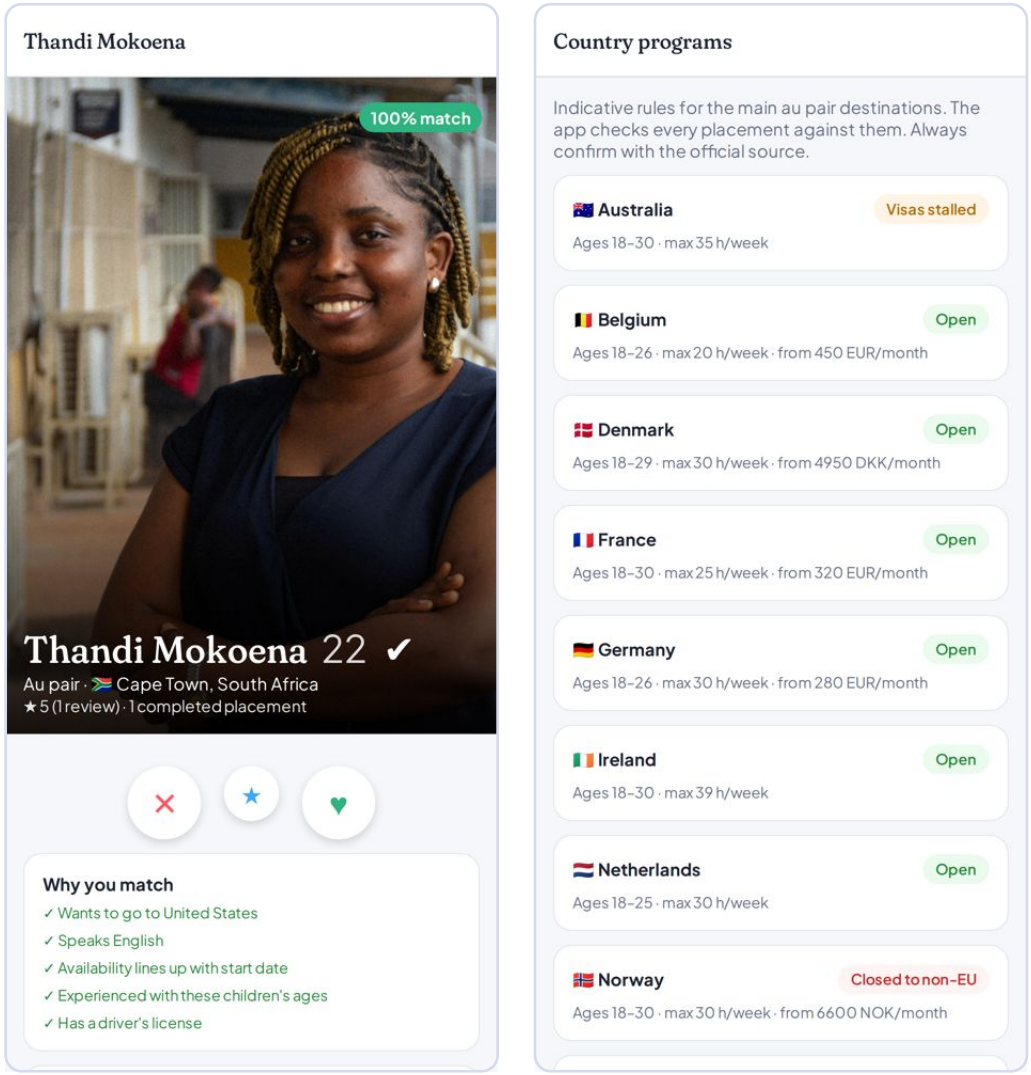

Proposal with dates, hours and pocket money, plus a shared checklist for visa, insurance and travel.

## Free for au pairs

Au pairs never pay. Families pay for a Family Pass.

# Trust built in

What makes PairMundo different from groups and classifieds

## Two-way reviews

After a placement both sides review each other. Reviews stay hidden until both are written, so they are honest.

## Country rules

Age limits, hours and pocket money for each destination, checked against every placement proposal.

## Verification

Email confirmation for every account and verification badges for checked profiles.

## Safety and privacy

Block and report from any profile or chat. Users can delete their account and data in the app (GDPR).

# Ways to work together

Flexible, non-exclusive, with simple shared tracking

## 1. Referrals

Candidates and families on PairMundo who want an official program or full agency support are referred to you.

For regulated programs such as the U.S. J-1 au pair program, PairMundo points people to the designated sponsor and its partners.

A fee is due for every referred au pair who starts, whether the placement is arranged in the app or by you. We compare referral lists together once a month.

## 2. Visibility for your au pairs

Your screened au pairs can appear on PairMundo with a partner badge, so families see they come through an agency.

Families who want agency support are sent back to you.

## 3. Your own branded app

Your logo and colors, your au pairs and families.

Matching, chat, placement tracking and two-way reviews, without building software.

Annual license plus a small fee per placement.

Pricing is shared on request. We suggest starting with a 3-month pilot with no monthly fee.

# Our partnership principles

- Au pairs never pay PairMundo, and partners never charge au pairs for being on PairMundo.
- Profiles that come from an agency are clearly labelled, so families know who they are dealing with.
- Every referral is tracked with a code. A placement fee is due when a referred au pair starts, confirmed by a simple monthly check of both sides' records.
- Profiles are shared only with the person's consent (GDPR). No bulk copying of lists.
- Visas, legal paperwork and program rules stay with the agency or sponsor. PairMundo does not replace them.
- Non-exclusive, starting with a 3-month pilot (no monthly fee) and a simple one-page agreement.

# Next steps

- A 15-minute call or a short video demo of the app, whichever suits your team.
- Agree which option fits (referrals, visibility or branded app) and how it fits your program guidelines.
- Run a 3-month pilot with no monthly fee and review the results together.
